Grading Checklist - PSP 0

Consistency Checks Comments Defects removed are consistent with compile and test phase time and program size. Total compile defect fix times are less than compile Total test defect fix times are less than test time. 1 Defect dates & phases are consistent with the time log. 1 Planning summary is consistent with the time log. Planning summary is consistent with the defect log. General Comments Followed the defined process. Complete, consistent and accurate process data collected. The student did his or her own work.
